Wholesale Growers
Apple and Pear Seedlings
Topeka, Kansas

TO THE TRADE:

We grow Apple and Pear seedlings—no other stock. Our stocks are all grown on new land—never in Nursery stock before. Apple Seedlings are from French Crab Seed. Stocks have been sprayed continually during the summer and are as near perfect in foliage as we ever saw—absolutely no Aphis, Root Knot, or Hairy Root. We sell only stocks we grow.

We have car lots going East, South and West, and can often save time and some expense by combining shipments.
